Jan 2022	1,388	1,954	7,364	37,613	3.08 GB

Editorial Calendar* January 2022 to January 2023

JANUARY 2022

Focus Areas:

- Software and IT solutions for oil and gas industry
- Alternative Energy, Bio fuel Technology and Agri oils, lubricants & greases.
- Industrial Rubber oil tools; Automation in Oil and Gas industry

Cover focus : Women in Energy, O&G, Engineering and Academia

FEBRUARY 2022

Focus Areas:

- Decarbonisation – O&G and Shipping & Maritime
- Artificial Lift, Asset Integrity and Subsea operations
- Oil field chemical & lubricants; Critical Power Control Systems and Instrumentation.

Cover focus : Energy Outlook & O&G Technology

MARCH 2022

Focus Areas:

- Pipeline Hot tapping & Plugging, Cleaning and Industrial greases.
- Petroleum Geosciences. G&G Services/Technology/Products
- LNG, FLNG, Gas Trading, Shale Gas, CBM and Gas Hydrates and Technology
- Path-breaking research in Downstream sector

Cover focus : Geoscience. Special Supplement focus: Downstream sector R&D

APRIL 2022

Focus Areas:

- Geoscience, IT solutions for O&G industry; Deepwater Exploration
- Marine technology solutions; Subsea and Deepwater technology
- IOR/EOR, Drilling Fluids and Cementation
- Remote Sensing and Role of GIS.

Cover focus : Geology/Geoscience

MAY 2022

Focus Areas:

- Finance and Project Management
- Emerging Trends in oil & gas refining, petrochemicals and chemical technology
- Oilfield Automation; Industrial IoT, Cloud Computing & Cyber Security.
- HSE Management ; Unconventional Resources, Renewable energy and HSE.

Cover focus : Refining & Petrochemicals.

JUNE 2022

Focus Areas:

- Geoscience, IT solutions for oil and gas industry
- Natural Gas, LNG, FLNG, Gas Trading, Shale Gas, CBM and Gas Hydrates.
- Asset Integrity Maintenance and Energy Infrastructure Management
- AI and Big Data Science.

Cover focus : Natural Gas, Geoscience & IT

JULY 2022

Focus Areas:

- Project Management – Hydrocarbon Pipelines.
- Hydrocarbon Projects, Structural Engineering, EPC; Infrastructure management
- IOR, EOR, Hydraulic Fracturing, Drilling, Oilfield Chemicals and Flow Assurance Solutions.
- Key oil & gas industry trends and outlook.
- Impact of digitalisation in Energy and Oil & Gas/AI/Data Science

Cover focus : Engineering & Technology

AUGUST 2022

Focus Areas:

- Liquefied Natural Gas (LNG), FLNG, Gas Trading, Shale Gas, Coal Bed Methane (CBM), Gas Hydrates and Hydrogen.
- Pipeline Hot tapping & Plugging, Cleaning and Industrial greases.
- Unconventional Resources, Renewable energy and Health, Safety & Environment (HSE) practices.

Cover focus : Natural Gas

SEPTEMBER 2022

Focus Areas:

- Refining and Petrochemicals Technology ; Industrial lubricants and greases.
- Finance and Project Management.
- IT-OT for Flow and Gas measurement, Valves, Fittings and LPG
- Innovation in HR & PR practices for effective info. dissemination - Energy and O&G.

Cover focus: Finance/Project Management

OCTOBER 2022

Focus Areas:

- Digital Oil Fields, Artificial Intelligence, Cyber Security
- Petroleum Geosciences/Technology/Products; Deepwater E&P; Offshore Engineering.
- Energy efficient Fuels & Lubricants
- Industrial Control Systems, Industrial Automation, Process Safety and Future Mobility

Cover focus : Fuels, Lubricants & Greases and HSE

NOVEMBER 2022

Focus Areas:

- Drilling Bit Technology; Drilling and Offshore Oil & Gas Technology and Services
- Metallurgy; Corrosion resistance tubing, hydraulic lines and drilling risers.
- Pipeline Integrity, safety management and Instrumentation & Control Systems
- Engineering consultancy and EPC service providers.

Cover focus : Engineering, O&G Pipeline and AI

DECEMBER 2022

Focus Areas:

- Shipping & Maritime
- Offshore support vessels, helicopters in oil and gas industry.
- Alternative Energy, Bio fuel Technology and Agri oils, lubricants & greases.
- Industrial Rubber oil tools; Automation in Oil and Gas industry

Cover focus : Helicopters in O&G Industry

JANUARY 2023

Focus Areas:

- Renewable energy, Tribology & Energy Conservation
- Refining and Petrochemicals Technology ; Bio fuels, lubricants and greases.
- City Gas Distribution, LNG, FLNG, Gas Trading, Shale Gas, CBM and Gas Hydrates
- FPSO, Deepwater Drilling Rigs and Construction Technology
- Simulation, Software and IT solutions for oil and gas industry

Cover focus : Women in Energy, O&G, Engineering and Academia

*Subject to revision
