## Cover Focus

### 24 'Floating solar has huge potential'

Lucy Craig, Senior Vice President, Growth, Innovation and Digital, business area Energy Systems at DNV talks to the Chief Editor, DEW Journal on world's first recommended practice for floating solar photovoltaic (FPV) projects by DNV and on the huge potential of solar energy from FPV projects

### 30 'Merging expertise will respond to a rapidly changing energy market in search of deeper decarbonization'

Brice Le Gallo, Regional Director, Energy Systems Asia Pacific, DNV talks to the Chief Editor, DEW Journal on new energy realities, DNV's Energy Transition Report 2020 and merging Oil & Gas and Power & Renewables businesses by DNV into one in response to energy transition.

### 40 PETRONAS becomes world's first to produce LNG from two floating facilities - PFLNG SATU and DUA

PETRONAS

PETRONAS' push in unlocking stranded and deep-water gas fields with floating LNG solutions that are more sustainable and economical compared with conventional solutions.

## Engineering Technology

### 17 Predictive maintenance for improved performance in oil and gas

## Special Report

### 12 ssLNG price competitive with diesel, LPG in India: CEEW Study

### 14 Perspective on how Industry 5.0 will connect human elements to smart production

### 21 3D geological modeling & visualization for deeper infrastructure digital twins

### 43 Drillship utilization surpasses pre-pandemic levels, but still room for improvement : Westwood Study

### 47 Industry and the application of all technologies hold the keys to protecting employment and stopping climate change : Repsol Chairman

## Plus

### 48 Bureau Veritas's expertise in offshore wind farms reaffirmed with certification
