Cover Focus

14 Pathway to Net Zero Emissions

"Zero is not enough. That is because, try as they might, many developing nations and hard-to-abate sectors will not be able to achieve zero emissions by 2050 - the critical threshold for the world to stay within 1.5°C of warming. DNV's new report "Pathway to Net Zero Emissions" describes a feasible way to limit global warming to 1.5°C"

ZERO IS NOT ENOUGH

"ZERO EMISSIONS BY 2050 IS NOT ENOUGH FOR MOST DEVELOPED COUNTRIES IF PLANETARY WARMING IS TO BE LIMITED TO 1.5 DEGREES" -REMI ERIKSEN, GROUP PRESIDENT & CEO, DNV DURING COP 26 AT GLASGOW.

Face to Face

38 Cyber security powerhouse

DNV and Applied Risk are joining forces with the aim to build the world's largest industrial cyber security practice, defending critical infrastructure in maritime and other industrial sectors against emergent cyber threats. Chief Editor, DEW Journal talks to Trond Solberg, Managing Director, Cyber Security, DNV on emerging cyber threats.

45 5th South Asian Geosciences Conference & Exhibition - GEOIndia scheduled for March'22

'Fossil Fuel, Decarbonisation and Changing Energy Dynamics the focus'

Chief Editor, DEW Journal talks to Mr. Jayanta Sarkar, Secretary, Association of Petroleum Geologists-India (APG-I) the organiser of GEOIndia 2022

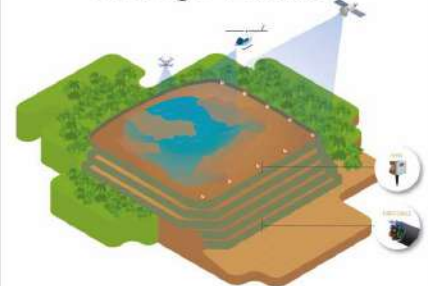

Special Report

- 11** Innovative wellsite processing solution proven to reduce carbon emissions of drilling operations by 50%
- 12** Data helps accelerate innovation on path to Net Zero, industry leaders say at AVEVA Sustainability Panel
- 24** Cairn for 10-fold reserve augmentation from offshore assets post new alliance
- 41** India invites the world
India invites global industry and experts to partners in India's shared prosperity by enhancing country's production of all forms of energy

Technology

- 5** Transforming platform integrity management
- 9** Technologies that create digital data sets far more amenable to analysis
- 22** TailingsPulse Monitoring Solution for Tailings Storage Facilities

CGG has launched TailingsPulse™, a smart mine monitoring solution for improving the management and safety of tailings storage facilities (TSFs). The new multi-method monitoring solution provides mine operators with actionable intelligence throughout the lifecycle of TSFs.

Plus

- 4** IIT (BHU) develops India's first device for on-site production of ultra-pure Hydrogen
- 28** Genvia, a Schlumberger JV in Hydrogen Technology supports decarbonization of critical industry sectors
- 29** Hydrogen – A Promise to Future Energy
